# HOME NETWORK CAMERA

# HOME NETWORK CAMERA

HNC-LJ01E/02E

- When earthquake or any vibration occurs, home camera sends a alarm massege to your smart phone automatically.
- If someone is havering around your door, our Home Camera sends a captured image to your smart phone automatically
- Home Camera is compatible with various z-wave devices such as magnetic sensor, motions sensor, temp sensor and etc.
- Home Camera connects to existing chime bell wiring and installs easily.
- Easy registration : With QR code, you can easily register this camera on your smart phone automatically

MODEL	HNC-LJ01E	HNC-LJ02E
INSTALLATION	Wall-mounted Type	
CONNECTIVITY	Smart Phone and Smart Pad	
	Z-Wave Device	
	Mechanical Chime (AC12~24V Electromagnet Type)	
	Magnetic Sensor	
SPECIFICATION	HD Camera Sensor : 720P	HD Camera Sensor : 1080P
	Built-in IR LED & IR Cut Filter	
	Built-in illuminance sensor	
	Built-in vibration sensor	
	32bit ARM Embedded CPU (Nextchip Cortex A5 700Mhz)	
	RAM : 256MB, Storage : 512MB	
	Linux OS	
FUNCTIONALITY	When detecting vibration, home camrea sends a alarm messege to a smart phone.	
	Conversation between a Home Camera and a smart phone through Wi-Fi & cloud server network.	
	Video recording and snap photos of visitors.	
	Compatibility with a mechanical chime bell in North America	
	Connectivity with a magnetic sensor and Z-Wave home automation devices.
